

# VS-A705-Chanson Miracle Max Royale (Under Counter Ionizer)

## Product Description

Chanson Miracle Max Royale make your kitchen beautiful with its stainless steel faucet and the touch-sensitive computerized smart phone panel in fully automatic 7 plate alkaline ionizer machine. It provides you alkaline and acidic water both. Chanson alkaline machine have larger titanium platinum coated plates which means it gives you more ionized alkaline water.

The new Chanson Miracle M.A.X. Royale developed for use in hospitals because of its world-class standards and specifications now being on a vast public demand is made available to homes also. We are sure; it would be love at first sight when you will look at the Sleek and amazingly designed Stainless-Steel faucet head along with an easy to use fantastic Smartphone-like display panel that allows you to select your pick to have the type of water you want. Your single gentle touch on the panel will deliver you the nectar you would have ever had.

Chanson alkaline water makes your life healthier. Our ionizer is the best in ionizer class which gives you alkaline water according to your preference for drinking, removes pesticides, wax, artificial colour, from fruits and vegetables, and acidic water for anti-bacterial, sanitization. We design our ionization machine fully automatic which is convenient to use.

Miracle max Royale HD touch sensor panel is user friendly full colour operating panel/screen with flow rate, ORP, PH, filter life up to 18000 litres and different useful setting. This panel has multi touch sensor screen. Touch sensitivity won't be affected even when water is on the LCD screen.

The seven medical-grade non-leaching Titanium Plates with nano fitting technology and an additional mineral salt port to enhance the strength of your water will make you awestruck. You would be excited to know that Chanson's Ioniser works both ways while catering to your acidic water requirements along with the alkaline water.

It instead provides you with a choice to select the pH of the water you need at that moment according to the application of the water required, like whether you need water to drink or washing vegetables. The alkaline water serves to your drinking needs, strong alkaline for degreasing, and the acidic water caters to your washing vegetables, non-toxic cleaning, and disinfecting along with serving to your beauty needs.

You would be delighted to learn that water at 2.7 pH of Chanson ionizer has been lab-verified to disinfect staph and e-coli the moment it comes in contact with it. And, the best part is your Royale can make this water for you from any water source, what many ionizers can't.

## Product Features

### Features of Chanson Miracle M.A.X, Royale

Your Chanson Miracle M.A.X.™ Royale Offers you with amazing features bundled in a single faucet to make you thanks us every time you will use it. And, here goes the features

#### Feather touch control screen

Easy to use feather touch control screen to enter your selection of water, you need to let you have the water no matter whether acidic, alkaline, or normal right in your sink from the ergonomically designed beautiful stainless-steel faucet fitted with an envious I phone-like display. And, above all, this faucet would be an addition to not to replace your earlier mounted kitchen faucet.

#### pH Consistency

Chanson water ionizers, unlike other ionizers, is an automatic machine that automatically adjusts the electrolysis amperage on its own to keep the alkaline levels consistent and deliver you perfect pH water.

#### Filter-Life Display

LCD screen keeps you updated with the filter life by regularly displaying the status. The water filter life is adjusted automatically according to the water quality you require.

### **Self-Cleaning**

It is the Chanson Royale's fantastic function to remain ever ready to cater to all your needs without keeping you awaited and wasting your time. It has an inbuilt automatic cleansing function that automatically flushes off the Ioniser after your every use, to take off the remaining standing water left in the machine. It prevents you from cleansing the Ioniser manually after you have used it, every time, besides saving your time to be spent in cleaning the Ioniser. Otherwise, every time you have first to clean the machine and wait before drawing water, adding to your annoyance, frustration, and time wastage. Thanks to its under-sink design.

### **Auto-Adjust Function**

It is a unique function of Chanson Alkaline water ionizer to automatically adjust its deliveries as per the requirement fed on the display panel. Depending upon the source water, it adjusts its settings and always delivers the right water as desired. In other words, setting in an ionizer is dynamic and get adjusted every time as per the need of the user and the water available. The ionizer is no doubt set at the same electrolysis settings, its fine-tuning feature takes care of this aspect, so it is immaterial whether you are using the ionizer in the U.S.A., U.K. or Australia. Chanson Ionizer is universal to be used anywhere in the world.

### **Auto Shut-Off**

Chanson Ioniser comes with an auto shut-off feature to shut off the Ioniser after every twenty minutes to prevent water wastage and flooding, in case it is left in service unintentionally by mistake. When required, the machine is again switched on.

### **An additional Salt Port**

Chanson Ioniser comes with a mineral salt port to cater to the acidic water (great for those with soft water) requirements. It requires to add a drop of Himalayan rock salt into the port whenever strong acid water is required, or an extra lift of the energy is in demand. The Himalayan salts are otherwise not a function of the Ioniser and are provided as complimentary to delight the user with strong acidic waters also.

### **Flow Valve**

A flow valve allows you to control the flow of water as per your likes and taste depending on your mood, whether you need a fast stream of gurgling water or a serene flow.

## **Product Specifications-**

Chanson Water Ionisers come with amazing specifications such as

The PJ-7000, a Catalytic Silver impregnated coconut shell Activated Carbon filter, is with unique twist-lock technology for easier replacement.

The anti-bacterial fibre activated carbon filter removes the lead from the water

The Ioniser removes lead ions and can eliminate the lead and the heavy metal from the old plumbing.

The activated carbon provides 20 times greater absorption volume ability than the usual filters.

The activated carbon also provides more than 150 times of absorption area ability.

The absorption speed of these filters is 10 times greater than the usual ones.

## **Can this Ioniser be hooked to a spray?**

Yes, you can quickly hook this Ioniser to your spray, as the A.C.E. Aerator Adapter 15/16 allows you to connect your diverter to spray-type or pull out faucets easily
